Captain Ward of the Amelia was told Captain Ward of the Amelia was told by Samuel Parker that similar assur ances had been received frem Admiral Walker of the Philadelphia. This news has been generally circulated through the island and caused a feeling that hostilities between the royalists and provisionalists unight be resumed at any time. The regulists sadly need firearms and money with which to successfully inaugurate a revolution. The fully inaugurate a revolution. The opiniou prevails in Henolulu that the queen has a representative in Europe for this purpose. Captain Ward was the guest of a family residing next door to the queen's residence and scouted the idea of the queen's going insane. She is in the best of health, fondly auticipating the event of restorntieu to the throne.

Nothing was knewn in the islands about her contemplated suit against the United States government for \$2,000,000 for the loss of the threue.

Captain Ward believes the royalists will attempt to restore her te power before long and prophesies the next revelution will be received as the believes the left of the control of the long at the left of the le olution will be not altogether bloodless.

FITZSIMMONS SIGNS.

According to This Dispatch There May Be a Fight Atler All.

NEW YORK, Oct. 19.—It is reported that Fitzsimmons signed the articles of agreement for a fight with Corbett yesterday. When he and Corbett met last week both agreed to the articles which governed the Corbett-Sullivan match, but when Fitzsimmons got to Philadel-phia he objected to some of the couditions.

In the articles the appointment of a referee was to be left to the club. Fitzsimmons refused to allow the club to have all the say and wanted a clause inserted which should give the principals of the fight the right to declare whether or not they would be satisfied with the referee. Fitzsimmous' argument was that as he thought the backers of the Florida Athletic club were friends of Corbett they might appoint a referee agreeable to the champion, but uot to him.

Corbett, it seems, consented to the addition of this clause. Corbett also agreed to the new articles as prepared by Captain Glori, Fitzsimmons' manager, in striking out all reference to The Police Gazette belt and consenting to have the weight of the gloves five

The Women Are Making It One of Uncommon Interest.

WASHINGTON, Oct. 19.-Letters received from Colorado indicato au interesting feature of the campaign is the part the women are taking in it. They will have their first vote on a general stato election in Novomber next, and it is represented they are evincing an in terest in politics which had net been supposed, probably, before the right of suffrage was conferred. All of the three parties, the Republican, Democratic and Populist, have tickets in the field, and there are female candidates on each of them.

Furthermore, the ladies, besides cooperating with the men on the state, county, ward and precinct committees, have independent clubs and other party organizatious of their own at which they discuss general political questions, eanvass party prospects and do all they can to instill into the minds of the members of their sex the necessity of a full party vote and of creating an ante-eleetion enthusiasm which will insure this result. They also hold public meetings which, though conducted, so far as the machinery is concerned, by the women, are addressed by speakers of both sexes. Meetings of this character have been held in the principal halls and theaters wareroom of L. Straub, his handsome

eampaign as the men, and the indicatious are that the female vote of the state will be almost equal to the female population. The state of affairs is due largely to the bitter feeling which exists between the Republican and Populist parties. The Republicans predominate in the cities while the Populists have their greatest strength in the minately more women in the cities than in the mining camps, the Republicans expeet to gain an advantage from the female vote.

TRAIN ROBBER IN COURT. Searcy's Preliminary Trial Postponed Until

Saturday.

CUMBERLAND, Md., Oct. 19.-C. J. Searcy, arrested for the Virginia train robbery, was brought before Judge Hoffman at 4 o'clock yesterday for examination. Lawyer Thomas of Baltimere represented the Adaus Express com-pany, and requested a postponement of the hearing until Saturday. The prisouer's counsel, Messrs. kichmoud and MacBeth, effering no objection, the request was granted and the hearing set down for Saturday at 4 e'clock.

It has been ascertained that Searcy pawned jewelry at two shops in Washington on the 27th of September. At one place he disposed of a lady's small gold watch of Elgin make, with a mau's chain attached, giving the name of Charles T. Arlington and his address as the office of the Washington and Georgetewn Railroad company. No such persen has been empleyed by that company, nor is the name in the city

At the other pawnshop he disposed of a plain masonic rivg, giving his name as C. J. Searcy and address as Memphis, Tenn., saying that he was in the city temporarily and inquiring how he could redeem the pledge by mail after he had eft the city.

The prisener continues to abstain from talking further than to maintain his innecence. There is a growing conviction that the prisoner, although probably a crook, had no connection with the Aquia holdup.

DR. CONKLIN GETS BACK.

He Tells a Strange Story About Being Kid-

Sept. 2, by two negroes and driven al! night to the house of some colored people, where he was kept in confinement one week, and then taken to some city unknown to him and turned over to two white meu.

After this he was carted around by night and confined in buildings by day always under gnard. His captors always wore masks, and he would be unable to recognize them. He was released Tuesday night and walked until he reached a house which he found was a few miles that he was clearly identified by his vic-from Cincinnati. He pawned his watch tim. there for money with which to get home. He left Cincinnati vesterday morning.

His captors changed his clothes and shaved off his moustache. He was told it was necessary for him to remain outside of Michigan for some time, but was given no reason. Until within the last 10 days he was confined part of the time in woods and raviues. The night of his capture ho was saudbagged, or at least rendered unconscious by some such means. He knows nothing of what has happened during the last six weeks.

He telegraphed here yesterday to his wife that he would be home last night, but she had removed to Manchester three weeks ago. He is in a perfectly rational condition and tells his story with a great degree of consciousness. When he reached his home he found it occupied by another family. He has no clew to the perpetrators and is unable to account for his abduction, unless it is because he would have been an important witness for the prosecutiou in the trial of Dr. Auderson at Traverse City, who has been acquitted of the charge of abortiou.

"GETTING EVEN" WITH A JOKER. A Bachelor Bridegroom Made Miserable on His Wedding Day.

CLEVELAND, Oct. 19.—One of the most exciting weddings that ever took place in this city was that of Attorney F. H. Goff Wednesday night. Coff is 55 years old, and through a long buchelorhood has perpetrated a series of prae tical jokes upon his friends who have preceded him in the matrimonial relatiou. They bided their time, and "get even," with a vengeance.

While the ceremony was in progress one of the conspirators found his way to the groom's room, stole his traveling suit and hid it in the barn. Goff berrowed an ulster from his newly acquired brother-in-law and wore it to the train over his dress suit. On arriving at the train he found his sleeping car section decerated with white ribbon and white roses. The trip to the depot was made on the streetear, another conspirator having, with his wife, palmed themselves on the carriage driver as the bride and groom, and driven to the de-

The quoudam groom possessed himself of satchels, handbags, umbrellas and the like in the carriage and has them hidden. A third conspirator followed Goff's luggage from his home to the depot during the day on a bicycle, bought a ticket to Ohusted Falls, O., for 40 cents, and ou it checked the lnggage to that village, where it is safely stored in the home of a friend. FURTHER DISTURBANCE.

Under a Strong Millia Guard the Negro Prisoner Is Safely Landed in the Penltentiary at Columbus-The State Troops All Keturn Home-Four People Dead and Two Others Dying.

COLUMBUS, O., Oct. 19.—Jasper Dolby, the uegro sentenced at Washington C. H. to 20 years' imprisonment for a criminai assault on a mest estimable white woman, an old lady, has been landed in the penitentiary. He was escorted here by Sheriff Cook and Deputy Busick, accompanied on the train by the Columbus companies of the Ohio national guard.

The arrival of the Cincinnati troops at Washington C. H. seemed the signal for a suspencien or rather a discentinuance of hestilities, for from the time of their arrival ne uoteworthy hostile move was made.

Arrangements had been made for removing the prisoner as seon as the troops arrived. The colered fiend, William Jasper, alias Dolby, was taken from the jail under escort of the troops and conveyed to the depot, where a Baltimore and Ohio train was in waitiug to carry him to Columbus, where he will speud the next 20 years of his

The prisoner stated to the peuitentiary officials that he was not guilty, but had entered a plea of guilty because he had been informed that he was to be mobbed, and that this was the only way to escape with his life. He claimed uever to have been arrested or charged with the slightest infraction of law. Dr. Ireton, in making the physical examination, said Dolby's legs trembled and his heart fluttered as a result of his scare. The fact in this case is

Affilirs at Washington C. H.

Washington C. H., Oct. 19.—Washington C. H. is as quiet as though rioting and bloodshed had never been seen within its borders. The withdrawal of the last detachment of soldiers with their implements of death acted like a soothing potion upon the half-crazed populace. From that hour the excitement rapidly subsided.

Just before the troops left the death of G. W. Johnson, or "Mac" Johnson, as the reporter called him, was announced. He was shot in the stomach and lived at Kyles, Butler county, O.

Every train brought relatives and friends of the killed and wounded, and upon these the citizens lavished every attention. George W. and E. C. Sams, father aud brother of William Sams, arrived about noou from Athens and reached the wounded mau's bedside a few minutes before he breathed his last. Sams' death adds a fourth to Wednesday night's victims. Theodore Ammermau is reported dying, and F. L. Nit-terhouse can hardly survive. Little George Keating, whose injuries were at first thought surely fatal, may recover, but will be horribly mained. A number of those reported seriously wounded are now known to be merely scratched or bruised.

There is still much feeling against Sheriff Cook. It is probable that criminal and civil proceedings will be instituted by relatives of some of the victims. Beyond this and the remorse of Wednesday night's awful scenes the Dolby riot is a thing of the past, and the good people here are thanking God that it was no worse.

The following is a complete list of the dead and those whose wounds demand medical attention: The dend ...e:

POLITICAL POINTS.

.....In union there is strength.

.....A house divided against itself shall not stand.

..... When honest men fall ont, rascals reap the benefit.

.....The Democratic party is the party of the people, and has no affiliation with A. P. A.'s and such like.

.....A great deal is said during the present canvass about voting for Catholies, as if Catholics were not citizens as well as any other people.

..... Many a man will inveigh against Catholics and the Catholic religion who has none of his own and who contributes nothing towards keeping up any.

.....The Republican candidate knows mighty well what Democrats to approach on the subject of voting for him, and the true-blue he gives a very wide berth.

.....Some men havn't any politics worth mentioning, other than the kind they can carry in their pants' pockets and which emits a jingling sound.

.....The highest conception some men have of politics is the dollars and cents viow, and when this can not be seen, they would as soon be on one side as the

other.

.....If some few Democrats in the county are not cautious they will wake up to the fact, when it is too late, that they have been used as catspaws to handle Republican chestnuts.

GEORGE WASHINGTON DAY BY DAY.

A New Book by Elizabeth Bryant Johnston Soon to Make its Appearance.

The Republic of Washington City says: Miss Elizabeth Johnston, the historical writer of Washington, has found out enough facts and sayings about the Father of His Country to make something worth reading and printing for every day in the year. For instance, on February 16, 1778, Washington wrote from Valley Forge, 'Naked and starving as they are, we cannot enough admire the incomparable patience and fidelity of the soldiery, that they have not ere this been excited by their suffering to a general mutiny and dispersion.' On February 17 ho sent to the States of New Jersey, Pennsylvania, Maryland, Delaware and Virginia an appeal for cattle for his starving soldiers and wrote with his own hand, 'A bountiful price will be given, and the proprietors may assure themselves that they will render a most essential service to the cause of their country.' Miss Johnston has published her valuable collection of data in a book called 'George Washington Day by Day.' It will be a good thing to have in the family and in school. It will make a birthday book, too, each one being thus able to note what happened to Washington on the date of the person's birth. The author designs her work especially for the young people of America. She wrote it in the patriotic hope of making the rising generation know Washington better and revere him more."

The book is now in the hands of the printer. It will be published by one of eagerly sought by Miss Johnston's many ley? Just look at this: friends in this section.

SENATOR JOHN SHERMAN

Declares Against Bounties and Says He Never Was an Extreme Protectionist.

What has come over the spirit of John the leading houses of New York, will be Sherman's dreams? Is he coming over handsomely bound and will no doubt be to us, or merely trying to queer McKin-

> "I am not now and never was an extreme protectionist."

Do you hear that, Governor? That's what Uncle John said at Akron last Friday night. From a McKinley standpoint isn't that heresy, William? Hadn't you better look after Senator John and get him together? Hadn't you better rally your old friend Sherman a little? Then look at this:

"No duties should be levied for protection that are not needed for revenue."

Jee whillikers! Something's wrong. But that's what Sherman said at Akron last Friday night. That's not orthodox McKinleyism. No duties for protection's sake? Don't that come pretty near a tariff for rovenue only? This is growing interesting. Then see here:

"I do not myself favor bounties to be paid for any production."

Senator Sherman said that, too. What more do you want, Governor? Will you read that to the Louisiana sugar growers? Isn't that somewhat of a right-handed slap at the McKinley bill? If you don't think so, then read this:

"One objection to the McKinley law was that it did not provide enough revenue to meet the necessary expenses of the Government."

Odsbodikins, but that's tough! But Unclo John said that in his Akron speech. What shall we do about this, William? Hadn't we better take him off to one side and give him a quiet tip? This thing will never do.

Who is an extreme protectionist? Who, indeed, but our own McKinley? Who isn't? Who pleads not guilty? Uncle John Sherman.

Who knows more in a minute than McKinley knows in a month?

John Sherman. Who says we must have protection for rotection's sake?

McKinley. Who says "no duties shall be levied or protection that are not needed for revenue?"

Sherman. Who favors bounties?

Bill.

Who doesn't? John.

Now don't leave us in doubt, Governor. Tell us where Sherman is wrong. Turn on the light. Tell us whether Sherman is hedging or whether he has reached that point where he can afford to begin telling the truth about the tariff on the installment plan. We leave this with our esteemed friend, the Governor, to clear up.—Toledo (O.) Bee.

THE SEVENTIETH O. V. V. I.

The Old Veterans Having a Good Time at Aberdeen—What Was Done Thursday.

Yesterday was the opening day of the annual rounion of the Soventieth Rogiment, O. V. V. I., at Aberdeen. Tho weather was delightful and by noon the town was crowded with the old voterans and sight-seers.

The old soldiers assembled at the headquarters of George B. Balley Post, G. A. R., at 2 o'clock in the afternoon, and marched in a body to the Baptist Church single substance which is foreign to our where the roll call showed seventy-four members of the Seventieth Regiment present.

The speech of welcome by Mayor Hill was felicitous and made the old soldiers feel good. The response by Hon. D. W. Loudon, Colonel of the Seventieth and Permanent President of the Regimental Association, was a masterful production, and the welcome to the old vets by A. T. Boswell, on behalf of George B. Bailev Post, was delivered in Mr. Boswell's inimitable style.

Colonel John A. Cockerill, who has won national fame as a journalist, then the West End. addressed the assemblage. His father was the first Colonel of the regiment. Mr. Cockerill's remarks were listened to with much interest and he was applauded to the echo.

Captain Johnson, an old-timer of the Seventieth, next addressed the boys. The afternoon exercises concluded with a few remarks by Editor Davis, of the Maysville Ledger.

At 7 o'clock the house was crowded to overflowing with the beauty and chivalry of Aberdeen and surrounding country. The exercises opened about 8 o'clock with the singing of "Marching Through Georgia," by the choir, in elegant style. Dr. Heaton was next called on, but declined, and Dr. A. N. Ellis responded ing. and gave the boys a good talk.

After music by choir, Colonel Cockerill came forward and related somo anecdotes of Sherman and Grant which were received heartily. At the close of his address ho was presented with a handsome boquet. He was followed by Captain Rankin, of Ripley, who in turn was np 110,000 cans of tomatoes the past followed by Captain Campbell, Company I, Seventieth O. V. V. I., who made a clever specch. Captain William Herbert, of the "Wild Cats," then made one of the best talks of the evening. He was planing mill and electric light plant at museums in this country, Canada and followed by Colonel L. The Cincinnati Commorcial Gazette, Tribune and Post had sensational articles yesterday detailing an attempt at suicide at Newport Wednesday by Mr. Roe Stockton, of this city. It is hardly necessary to add that there was not a word of truth in the article so far as Mr. Stockton is concerned.

The Commercial Gazette was notified Wednesday night that Mr. Stockton was at home and well, and why it published the articlo is a mystery.

"The biggest man on earth," is the way the Cincinnati Post speaks of Joe Grimes, formerly of this city.

"The factory occupies three floors,' says the Post, "communicating with each

"Grimes occupied his first day by running up and down these steps with the agility of a schoolboy and watching the last accounts, with three feet in the convicts in his charge to see that none of them got away. He is not so remarkable for his height as for his breadth and enormous proportions.

"He is six feet six inches tall and weighs 466 pounds without his clothing. A tape line around his shoulders recorded almost 85 inches, around his hips 65 inches, waist 58 and chest 60 inches. Instead of reducing he has only hardened his flesh and developed his strength. He includes a half mile run every day to prevent himself from getting heavier.

"His constant training has made him as active as most athletes. He can kick a hat held at arm's length by a six-foot man, and can stand flat-footed and jump half way across a room. His monstrous size make these statements seem in-

NEW BASE BALL DEAL

Formation of a New Circuit For Next Season.

EIGHT CLUBS ARE REPRESENTED.

It Will Be Styled the American Association of Base Ball Clubs, Representing Philadelphia, New York, Brooklyn, Washington, Chicago, Pittsburg, and Milwankee and Another Western City.

PHILADELPHIA, Oct. 19.—Base ball men representing six cities quietly gathered together in a room in the Colomade hetel, this city, at noon yesterday, and after six hours' deliberation and discussien Frank R. Richter, editor of a sporting paper, who acted as spokesman fer the party, anneunced the fermation of the American Association of Base Ball Clubs with a circuit made up thus far of Philadelphia, New York, Brooklyn and Washington in the east, and Chicago, Pittsburg and Milwaukee in the west. The eighth elub is to be located in St. Louis, Detroit, Celumbus or Buffalo, with chances favoring the latter.

The meeting was composed of the fellowing gentlemen: William Barnie, representing Brooklyn eapitalists, generally understood to be the owners of Ambrese park; W. B. Beeannon, representing New York parties, rumored to control the Polo grounds, the lease for which has been heretefore held by the National League team of this city; F. C. Richter and W. Kames of Philadelphia, who, it is said, hope to secure the old grounds used by the famous Athletic elub of the once powerful American Association; Walter Hewitt and M. E. Scanlan of Washington, well known in connection with base ball at the national capital a few years ago; A. C. Buckenburger, a base ball manager of national celebrity, and A. L. Lerey, representing Pittsburg and Fred Pfeffer, the head of the new erganization in Chicago. H. D. Quinn of Milwaukee was represented by prexy, but he is expected here.

The would-be magnates were cen-frented upon their arrival in the city by the anneuncement that Al Johnson, the wealthy Cleveland capitalist, who had been looked upon as the backer of the new organization, had withdrawn his financial support and decided to have nothing to do with base ball hereafter. Net the least east down, however, by this unexpected move, the delegates organized at noon by choosing Mr. Richter as temporary chairman, Mr. Hewitt acting as temperary secretary.

It was decided to organize a new American association, with a circuit comprised of the cities represented, all the delegates having shown financial backing satisfactory to the convention. Applications for membership were received from Bulfalo, Detroit, St. Lonis, Cincinnati, Providence and Columbus. These were referred to a committee, pending the mrival on Friday of a delegate from Buffalo. It was decided to name the new organization the Ameriean Association of Base Bull Clubs.

The constitution reported by a committee, composed of Messrs. Kames, Barnie and Scanlan, was then adopted. This constitution limits the membership to eight eities, fixes the life of the association at 10 years, defines the duties of the president, secretary and board of directors, regulates the con-tract and control of players, and prescribes rules for the championship.

The gate receipts are to be divided equally, after the payment of 10 per cent into the general fund, which must be maintained at \$25,000. Each club is to be permitted to regulate the matter of free admissions according to its own judgment. The regular admission was fixed at 25 cents and permission to play Sunday games was accorded to all clubs that desired that privilege. Exhibition games between Association clubs during the championship season are absolutely prohibited. Transfers of games will not be permitted. The buying and selling of ball players' releases is prohibited by the constitution. The sections relating to membership and full receipt division can not be amended except by ununimous consent, thus preventing any "throw-downs" whatever.

It was also decided that the double umpire system should be used. Each elub must adopt for its team a distinctive style and color of uniform to be worn at home and not to be changed during the season. Said color and style must be registered with the secretary and can not be used or infringed upon by the other association clubs. Stringent rules were also adopted on the subject of dirty ball playing and rowdy conduct on the field.

It was decided that there should be no fight with the League if the Association could avoid it. In pursuance of this policy it was decided to respect all contracts and to play a non-conflicting

schedule. At 8:30 o'clock the delegates got together again and discussed the situation until nearly midnight, when an adjournment was taken.

A president and secretary are to be elected and other details of the organization perfected before the final adjournment of the meeting.

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquia laxative principles embraced in the remedy, Syrnp of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually eleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all druggists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co. only, whose name is printed on every package, also the name, Syrap of Figs, and being well informed, you will not accept any substitute if offered.

We have everything to gain by trading on a narrow margin of profit. We could not fill our shelves with goods at the very lowest prices known in the market if we did not buy on a large scale, and we could not sell on a larger scale unless we gave the publie the full benefit of our close buying. We love to make our discounts. Our business will grow steadily, because we give it close attention. We buy cheap; we can sell cheap. Try us, the people's grocers,
